Universal Interventions/Primary Prevention

Addresses entire population, as all members of population share same risk
Aimed at preventing or delaying the abuse of alcohol, tobacco, other drugs and problem gambling
Mission is to deter or delay onset

Selected Interventions/Secondary Prevention

Targets subset of general population deemed to be at risk for substance abuse or problem gambling (COAs, dropouts, students who are failing academically, etc)
Risk groups identified on basis of biological, psychological, social or environmental risk factors
Individual's personal risk not specifically assessed or identified, presumption being part of at risk group

Indicated Interventions/Tertiary Prevention

Designed to prevent onset of substance abuse in individuals not meeting DSMV criteria, but exhibiting substance abuse-like behavior, at a subclinical level
Individuals showing early warning signs (falling grades, consumption of alcohol, other drugs)
Addresses risk factors associated with individual, such as conduct disorders, alienation from parents, school, positive peer groups
Focus on reduction in first time abuse, and reduction in length of time signs continue
