Community Education and Awareness

The staff at NCADD-RA provides presentations on a wide variety of substance use-related topics upon request. We customize our presentations to meet the needs, interests, and available timeframe of your group. Presentations may be provided to schools/universities, PTA/PTSA or other school groups (to include classroom presentations), outreach and clinical staff, both youth and adult community groups, faith based groups, or businesses/workplaces.

A wide range of topics include the following:

- Signs, Symptoms and Current Trends
- Vaping and Marijuana
- Fetal Alcohol Spectrum Disorder: An Overview
- Underage Binge Drinking
- Impact of Addiction on the Family
- Opioids: Impact on Community and Resources
- Marijuana: Health Impact on Youth, Families, and Communities
- Synthetic Drugs
- Problem Gambling: Impact on Families and Communities
